

Your Reliable Partner for schön + sandt and Leiner Machines

Our company specializes in technical service, spare parts supply, and support for schön + sandt machines.

We assist customers worldwide in maintaining and improving the performance, reliability, and service life of their machines. From fast and reliable spare parts supply to maintenance, repairs, extensive modernization, and retrofit solutions, we provide practical technical support from a single source.

Our Services

Spare Parts

We supply spare parts for schön + sandt die-cutting machines as well as schön + sandt shoe machinery and assist you in identifying the right components.

Worldwide Machine Service

We provide worldwide technical service for schön + sandt die-cutting machines. We support you with technical issues, repairs, commissioning, and the optimization of your equipment.

Maintenance and Service Contracts

Regular maintenance is a key factor in ensuring operational safety, reliability, and machine availability. In addition to standard maintenance services, we offer customized maintenance contracts tailored to your specific technical requirements and operating conditions.

Modifications and Retrofit

We carry out technical modifications and retrofit projects to adapt existing machines to new requirements. This can sustainably improve the performance, reliability, and service life of your equipment.

Software Troubleshooting

In the event of problems with machine or control software, we assist with fault analysis and troubleshooting. Our goal is to identify the cause quickly and minimize machine downtime.

Control System Upgrades and Modernization

We carry out control system upgrades and technical modernization projects, particularly when existing control components are no longer available or when an update of the control technology is required.

Telephone Support

For technical questions or urgent issues, our telephone support is available to provide fast and straightforward assistance.

Used Machines

We are also active in the trade of used machinery and support our customers in the purchase and sale of suitable machines.

Service for schön + sandt Shoe Machines

We also offer spare parts and technical service for schön + sandt shoe machines. However, due to varying technical requirements and the availability of certain components, this service may only be available on a limited or project-specific basis.

Our Commitment

Our goal is to provide our customers with reliable, practical, and long-term technical support.

Our focus is on solving technical problems quickly, ensuring the long-term availability of machinery, and extending the service life of existing equipment.

From spare parts and maintenance to repairs, retrofit solutions, control system modernization, and worldwide machine service – we provide competent support for all aspects of your schön + sandt machines.
